CORRECT ADDRESSING SPEEDS DELIVERY

A CORRECTLY ADDRESSED ENVELOPE

A. B. Smith,
1041 Dudley Avenue,
Winnipeg 9, Man.

Mr. C. T. Thompson,
528 Osborne Street,
Winnipeg 13, Man.

1. Always address to Street and Number, Post Office and Zone number.
2. Province.
3. Return address in upper left hand corner.
4. Stamp in upper right hand corner.
5. When writing to places outside of Canada, always add name of Country in full.

Addresses shown in the City Directory of persons residing outside the Winnipeg Letter Carrier Delivery Area are not necessarily adequate for postal purposes.

Addresses shown in the City Directory of persons or firms listed according to the name of the Building are not acceptable to the Post Office, always use the street and number. Street addresses of Buildings are listed in the introductory pages of this Directory.

Introductory

The present volume for the year 1961 is the eighty-third edition of Henderson's Directory of Winnipeg, the first being in 1878.

THREE MAJOR DEPARTMENTS

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE, printed on yellow paper, constitutes the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings — a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Buyer's Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Winnipeg, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on green paper, is the third major department. In this section the named streets are in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

ADVERTISING WINNIPEG

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Winnipeg, for businessmen the country over realize that the City Directory represents the community as it really is.

ESTIMATED POPULATION OF METROPOLITAN WINNIPEG, 461,000

This Directory estimate of population is based on the 1956 Dominion Census of 409,687. The Metropolitan Winnipeg Directory covers considerable territory beyond the metropolitan area, which is canvassed in order that the names of all people employed or who purchase in Winnipeg may be obtained.

Respectfully, The Publishers,

April, 1961.

HENDERSON DIRECTORIES LIMITED.

Publishers' Note

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HISTORY

The above is a facsimile of the City Seal, adopted by Council, June 1st, 1874, the motto of which is, "Commerce, Prudence, Industry." The significance of the emblazonry thereon may be described as follows:—

The Buffalo, the hardy, fearless, nomadic monarch of the plains, who had original possession and held sway where the City of Winnipeg now stands.

The Engine, the civilizing mechanism of man's ingenuity, displaced the buffalo, was the forerunner of prosperity, and is the means of social and commercial communication which the City enjoys with the world.

The Sheaves of Grain represent the source from which the prosperity of this City emanated and are emblematic of our City as the Gateway of the Golden West and as the greatest grain centre in the world.

The City of Winnipeg is the capital of the Province of Manitoba, and the Provincial Legislative Building and Grounds among the most beautiful on the continent.

The name WINNIPEG has the origin in the Indian Cree name given to the lake 40 miles north, meaning "Win," muddy; "nipee," water.

Winnipeg is situated in Latitude 49 deg. 54' N., Longitude 97 deg. 08' W., at the confluence of the Red and Assiniboine Rivers; 40 miles south of Lake Winnipeg and 60 miles north of the boundary line between Canada and the United States of America; almost midway between the Atlantic and Pacific Oceans and at an altitude of 760 feet above the seaboard level of New York.

The composition of the Metropolitan Area is as defined in the Dominion Bureau of Statistics Census for 1951, viz: City of Winnipeg, City of St. Boniface, City of St. James, City of East Kildonan, Town of Tuxedo, Village of Brooklands; municipalities of Fort Garry, St. Vital, Old Kildonan, North Kildonan, West Kildonan, Assiniboia, Charleswood and the Town of Transcona.

It is the railway centre of Western Canada with all lines passing through it having workshops capable of manufacturing or maintaining all types of equipment.

Winnipeg International Airport located in the adjacent city of St. James and only fifteen minutes from down-town Winnipeg has been called the "Air Crossroads of the Continent." Developed to handle the largest and heaviest types of transports it takes its place among leading airports.

From a Hudson's Bay trading (Fort Garry) in 1870, with a population of 215, Greater Winnipeg has grown to the size and finish of a first class metropolitan area of an estimated 460,000 people. When the City was incorporated in 1873 there were, 1,869 inhabitants. In 1878, steam railway connection from St. Paul, Minn., had reached a point just across the river from Winnipeg, and in 1881 railway communication from the east was established by the Canadian Pacific Railway. With the advent of railway connections a steady stream of travel and trade, with influx of population, was started and has resulted in the building up of a city of a size and importance that is exceeded by only three cities in the Dominion of Canada.

ORIGIN AND BACKGROUND

The history of Winnipeg is, in effect, the story of transportation and trade in Western Canada for the beginnings of the City and its environs lie back in the lusty days of the fur trade and the hardy voyageur. The eighteenth century French explorer, Sieur de la Verendrye, was probably the first white man to set foot in this region. Here, he established Fort Rouge about the year 1737.

This location became of strategic importance in the fur trade, as the easiest method of supply and communications south from the Hudson Bay and west from Montreal was by water route. In 1812, Lord Selkirk, a Scottish nobleman, obtained a vast land grant on the Red and Assiniboine rivers for the purpose of settlement.

Fort Garry, built in 1835, was the jumping off spot for the fur trader pushing west and north. Later, it was the base for the settler migrating into the vast plains and rolling parklands.

The colony developed and the line of communications gradually changed from the Hudson Bay route to follow the Red River south to the United States. By 1859 the Hudson's Bay Company was freighting in goods from the city of St. Paul in the State of Minnesota. In that same year the first steam boat service commenced on the Red River from Fort Garry to Georgetown, Minnesota, at the head of navigation on the river. The first railway engine in the west came by barge over this route in 1877.

The Province of Manitoba was formed in 1870 with its capital at Fort Garry. The district around Fort Garry came to be known as Winnipeg, and under this name it was incorporated as a city on November 8th, 1873, with a population of 1,869. Development of the new city was rapid.

The first shipment of wheat took place by river boat in 1878. In the fall of that year the first train ran between St. Boniface, across the river from Winnipeg and St. Paul, Minnesota, providing rail transportation with eastern Canada, via the United States. By 1885 the first through train on the new transcontinental Canadian Pacific Railway line from Montreal arrived in Winnipeg.

There was a gradual flow of settlers into the west, but the flood tide came between the years 1900 and 1913, with a great influx of European and American immigrants. In the period of ten years from 1901 to 1911 the population of the metropolitan area increased by more than a hundred thousand. The requirements and demands of the increasing western population necessitated increased facilities for trade and commerce and for the gathering and distribution of capital. As early as 1884 there were 75 wholesale and jobbing houses in Winnipeg.

The area had become the distributing and commercial centre of the west and then, to meet the needs of commerce and the grain trade, it became the financial centre.

The growth of manufacturing and processing industries commenced as early as 1825, with the erection of a windmill to grind flour. By 1831 the colony was self-supporting in this commodity, and ten years later there were 18 windmills and two water-driven mills in the district.

The present flourishing needle trades industry commenced about 1895. Between 1900 and 1906 several small factories were in operation fabricating overalls, workshirts and heavy knitted goods, in order to satisfy the demand for sturdy, warm work clothing. This industry has expanded to the point where its products, such as ladies suits and sportswear compete with the best products of other North American garment centres, both in style and quality of workmanship.

The extensive meat packing industry grew from small meat processing plants set up in the 1890's. The opening of the St. Boniface stockyards, largest in the British Empire, in 1913, gave impetus to the industry, and by 1925 slaughtering and meat packing was the leading industry.

WINNIPEG CITY HALL

TRANSPORTATION

From a small beginning some 50 or 60 years ago, industry in the metropolitan area has flourished and developed until today there are approximately 1150 manufacturing and processing establishments producing a large variety of commodities.

The position of the Metropolitan Area of Winnipeg in the geographical centre of Canada is such that it is the focal point for all roads, rail and air transportation routes crossing the dominion. Its location in the narrow area between Lake Winnipeg and the international border results in the convergence of rail and road routes through the Winnipeg district. As a consequence, Winnipeg is one of Canada's great railway centres. Similarly, the area is an important air centre being at major aerial cross roads of the North American continent. The Winnipeg district owes its dominant position in the West to the excellent transportation facilities with which it is endowed. From Winnipeg there radiates a network of 11 provincial main highways leading to all sections of the province and connecting with major routes of adjoining provinces and states. Nine of these roads are concrete or asphalt and two are gravelled highways. These roads carry all-year-round traffic or public passenger and freight transit companies.

BUS SERVICE—

The Union Bus Terminal, located in the downtown shopping district of Winnipeg, provides centralized terminal facilities (i.e. loading platforms, rest-rooms, baggage service, restaurant, telegraphs, and telephone service), for passengers on the bus lines operating in and out of the Metropolitan Area. From the Union Terminal there is an average of 90 scheduled trips every 24 hours. Main line runs include 3 trips daily south to United States points (i.e. Minneapolis); 2 trips daily west to Vancouver and intermediate points; and 3 weekly to Red Lake mining district in Ontario. Express for rural areas is carried on most runs.

MOTOR TRUCK—

Motor carrier services in the Metropolitan area facilitate speedy haulage of freight to and from all parts of the province. There are over 70 firms operating under Interprovincial Licenses, some 10 firms operate car transports.

Daily service to most towns within the province is provided except in the case of the most northerly districts where the service is tri-weekly. Over and above the numerous transfer and delivery units working in Metropolitan Winnipeg there are 410 licensed carriers maintaining service from country points into the Winnipeg district with over 1100 vehicles.

AIR TRANSPORT—

The Commercial Airfield for the metropolitan area is Winnipeg International Airport, located in the suburban city of St James, four miles west of the downtown business district. The Airport is under the control of the St. James-Winnipeg Airport Commission. Convenient bus and taxi service connect it with all sections of the Metropolitan Area. The airport covers approximately 5000 acres and has three concrete runways.

The control tower operates on a 24-hour basis. Complete aircraft engineering and maintenance service is available at the field. Customs facilities are maintained at the field for aircraft coming in from the United States. On an average day there are a total of 150 flights in and out of the airport, 28 of which are scheduled arrivals and departures. Over 420,000 air passengers travelled from the Field annually. The following schedule airlines operate from it:

Trans-Canada Air Lines—transcontinental flights carrying mail, passengers, and express. The Winnipeg Metropolitan Area is Canadian Operational Headquarters for T.C.A.

TransAir Limited — connecting Winnipeg with Manitoba points carries mail, passengers and freight. Headquarters is situated here.

Canadian Pacific Air Lines—passenger, express and mail service on a transcontinental basis.

Northwest Airlines, Inc.—connecting Winnipeg with United States centres, via. Minneapolis. Mail, passengers and express. Canadian headquarters is located in Winnipeg.

Charter air service, using float planes, is available from Trans-Air Limited, which has its head office in the City of Winnipeg. Charter land plane service is to be had from T.C.A., C.P.A. and Graffo Flying Service.

WATER TRANSPORT—

The Red River, flowing from south to north, is navigable by commercial river and lake boats from Winnipeg north to Lake Winnipeg. This route is used to haul lumber and fish from the northern lake regions and to supply communities and trading posts on Lake Winnipeg. The navigation season lasts from the beginning of June until the end of October.

RAILROAD FACILITIES—

As the railroad centre of Western Canada, the Metropolitan Area is well supplied by rail service. The trains of seven companies operate in and out of the region, viz., Canadian National Railways, Canadian Pacific Railway, Greater Winnipeg Water District Railway, Great Northern Railway, Northern Pacific Railway, Soo Line Railroad, and the Midland Railway. In order to expediate passage of freight and passengers in the United States, the following American companies maintain ticket and/or freight offices in Winnipeg: Burlington Lines, Chicago Great Western Railway Co., Chicago, Milwaukee, St. Paul and Pacific Railway Co., Chicago and Northwestern Railway System, Chicago Rock Island and Pacific Railway. The Western Divisional headquarters of the Canadian Pacific and the Canadian National Railways are located in Winnipeg. Both of these large transcontinental lines operate extensive roundhouse and repair shops in the area. They maintain large freight marshalling yards. The Canadian National and Canadian Pacific Railway yards have a combined area of 1,900 acres. About 14,500 cars can be accommodated on the 537 miles of track. An average of 135 passenger and freight trains arrive and depart in a day from the metropolitan area. This is equivalent to an average of 7,000 cars that are handled every 24 hours. The record number of cars handled in one day is:—C.N.R., 5,370 and C.P.R., over 4,600.

INTERNAL TRANSIT SYSTEM—

The Metropolitan Transit Commission operates a modern transit system with a fleet of over 422 vehicles made up of 140 trolley buses and 282 motor buses, 246 diesel and 36 gas. Modernization has converted all street car routes to rubber tired vehicles. To handle power requirements of the new motive equipment, three power substations have been constructed. In order to expediate greater efficiency throughout the transit service, the company has installed a short wave radio system with two transmitting stations and 19 two-way mobile stations supervising all operating motive units.

TAXICAB and U-DRIVE SERVICE—

In 1960 there were 141 licensed taxicab operators in Winnipeg. These individuals and companies maintained a fleet of 400 vehicles. Over 90% are equipped with two-way radio communication systems to provide a more efficient service.

There are 9 U-Drive companies in the metropolitan area. They operate a fleet of approximately 310 vehicles.

WAREHOUSING and STORAGE—

The Winnipeg area, as the largest distributing and warehousing centre in Western Canada, has ample facilities for storage and forwarding of dry merchandise, cold storage and household effects. Ten storage firms handle dry merchandise with charges based either on space or on the unit involved and the type of commodity. Cold storage facilities with freezing and /or holding service are available from six firms. Cold storage charges are based mainly on weight and storage time. Fourteen firms provide storage service for household effects. Thirteen forwarding agents operate in the Metropolitan area, offering pool car service in most cases. Forwarding charges are on a flat rate basis depending on the article and size of shipment.

NATURAL RESOURCES AND RAW MATERIALS

The rich Red River Valley land of the surrounding area is a clay loam with an alluvial silt top soil. It produces such major grain crops as wheat, oats, barley, and flax. There is also a considerable market gardening industry, which supplies the large urban domestic market and provides vegetables for the canning and food industry. The large dairy herds of the nearby farming districts form a major source of the Metropolitan fluid milk supply for domestic consumption and for ice cream manufacturing.

The varied industrial and processing establishments of the area draw on raw materials from every part of the Province of Manitoba, as well as beyond its borders. Basic materials close at hand include, sand, gravel, clay, lime, gypsum, and the famous

Courtesy Manitoba Government Department of Industry and Commerce

OLD FORT GARRY GATE—A Historical Landmark

Tyndall limestone for the building and construction industry. Bentonite clay, an important bleaching and clarifying agent in oil refining and a filtering agent in the packinghouse industry, is produced in southern Manitoba and refined in Winnipeg. The metropolitan fur garments industry fabricates fur coats and jackets from skins which are produced, dressed and dyed within the province.

Secondary resources from several basic Manitoba industries are utilized by many allied secondary industries. For instance, breweries in the Metropolitan area depend on the local malting industry for malt produced from Manitoba grown malt barley. Manufacturers of barley products and confections use the product of a nearby sugar refinery. Stock feed processors utilize the valuable meal by-product from vegetable oil processing while the vegetable oil itself constitutes a main ingredient in such local products as salad oil and margarine. From Manitoba's vast pulp forests come the materials for manufacturing the paper used in the printing, publishing, and paper box industries in the Winnipeg area.

CLIMATE

The climate is of the inland continental variety with wide seasonal variations. Summers are warm with cool nights. The winter is fairly cold with a dryness which makes the climate invigorating.

Years on Record	Average Annual Precipitation
66	21.19" with 9.62" in growing season

UTILITIES

POWER—

A factor of major importance to modern industry is the supply and cost of power. In this respect the Metropolitan Area of Winnipeg is advantageously situated. Hydro-electric power is supplied to the area by two organizations: The Manitoba Power Commission, a Provincial Government corporation, and The City Hydro, a City of Winnipeg utility. The power supplied by these utilities is generated on the Winnipeg River within a hundred miles of Winnipeg and a new Thermal Plant was constructed for the city to take care of unusual local peak requirements. Power shortages are unknown as development of power production has been kept well in advance of industrial and commercial requirements. The cost of hydro-electric power for industrial and commercial use in the Metropolitan area is among the lowest in Canada. Large consumers may receive a special discount subject to negotiations. The following current is available for commercial and industrial services:

Alternating current, single phase, 60 cycle, approx. 120/240 volts

Alternating current, three phase, 60 cycle, approx. 230 to 575 volts or higher.

The City of Winnipeg Hydro-Electric System distributes power in Winnipeg proper, while the Manitoba Power Commission distributes power in the other municipal corporations comprising the Metropolitan area.

WATER—

The greater part of the Metropolitan area is incorporated into the Greater Winnipeg Water District administered by the Metropolitan Corporation of Greater Winnipeg, drawing its supply from Shoal Lake, an arm of Lake of the Woods roughly 100 miles east of Winnipeg. The sections of the Metropolitan area included in the Water Districts are:

City of Winnipeg
City of St. Boniface (partial)
City of St. James (partial)
City of East Kildonan (partial)
Town of Tuxedo (partial)
Fort Garry (partial)
Town of Transcona
St. Vital (partial)
West Kildonan (partial)

The District also supplies water to Charleswood, Brooklands, North Kildonan, Rosser, Old Kildonan, C.P.R. North Transcona, St. Charles Country Club.

The source of supply provides limitless water without fear of drought conditions. A concrete aqueduct from the source to a point eight miles east of St. Boniface has a daily capacity of 85 million gallons. Actual delivery capacity to the Winnipeg area is 42 million gallons a day. Average consumption in the Water District approximates 31 million gallons daily. From an industrial standpoint the water supply is considered ideal, there being few industrial processes for which further treatment of the water would be necessary.

SEWAGE—

A central sewage system and sewage treatment plant serves Winnipeg, St. Boniface, St. James, St. Vital, East Kildonan, West Kildonan, North Kildonan and Transcona. Raw sewage from these areas flows to the central treating plant and is rendered inoffensive before discharge into the Red River.

FUEL

The industrial fuels used in the Winnipeg area are coal, petroleum and natural gas. All are imported from outside the province.

COAL—

Roughly 50% of the coal used in Manitoba is Lignite, from the nearby coalfields of Southern Saskatchewan. The remainder is bituminous from Alberta and some anthracite from the United States. The following indicates the approximate calorific value of certain common types in industrial use.

	B.T.U. value
Lignite	6500 - 7500
Greenhill Stoker (Bituminous)	12,000
Elkhorn Stoker (Bituminous)	14,000

CENTRAL HEAT—

The downtown business district of the City of Winnipeg is serviced with central steam heat, supplied by a city-owned utility. In addition, residential areas in the southend of the city are similarly supplied by a private corporation.

FINANCIAL INSTITUTIONS

As the financial centre of Western Canada, the Metropolitan area has many facilities for the organization and distribution of credit the majority of which are located in the city of Winnipeg.

BANKS—

Canadian chartered banks, which are subject to strict government regulations and supervision, operate on the branch banking system. These factors minimize banking failures, making the Canadian system one of the most stable in the world.

Seven of Canada's chartered banks operate a total of 105 branches in the Metropolitan area. These branches are strategically located to handle the needs of the public, serving not only the highly developed commercial areas but also the outlying residential districts in their widespread and varied demands.

The steady industrial growth of Winnipeg has meant a constant increase in potential commercial demand for banking loans. Small and personal loans receive the same particular attention of Branch managers as the larger credits that come before Superintendents and Supervisors of the various banks in Winnipeg.

In Winnipeg, one large banking operation that recurs annually is the supplying of credits and cash to move the western grain crop to market. Such requirements can, in some seasons, reach the hundred million mark.

The banking function, involving the purchase of documentary domestic and foreign bills and the sale of exchange payable in any recognized free trading center in the world is increasing daily. This reflects the importance of grain business and the expansion of grain business and the expansion of other commerce to national and international markets.

Bank clearings in Manitoba, over $18 billion dollars annually, represents almost half of all clearings in the three Prairie Provinces.

The Bank of Canada, the Canadian central bank, maintains a central agency in the City of Winnipeg. The Bank is government owned and controlled, functioning largely as a regulatory body.

Courtesy Manitoba Government Department of Industry and Commerce

Winnipeg from the junction of the Red and Assiniboine Rivers.

The Industrial Development Bank, a subsidiary of the Bank of Canada, has a regional office in Winnipeg. The function of this organization is to provide financial assistance to smaller industrial enterprises which have reasonable prospects of success. The Industrial Development Bank supplements the activities of other lenders, providing capital assistance.

The Manitoba Development Fund, set up by the Manitoba Government to provide financial assistance to new industry, and already established industries. The Fund also financially assists Community Development Corporations to establish new industries in rural areas.

INVESTMENT and STOCK BROKERS—

43 investment dealers and stock brokers provide Metropolitan Winnipeg with a complete investment service, buying and selling bonds and debentures, underwriting new security issues and providing investment information. There are 28 members and 7 registered non-members of the Winnipeg Stock Exchange. Most firms have representation on all the larger stock Exchanges of North America.

TRUST, LOAN MORTGAGE and FINANCE COMPANIES—

About 70 organizations of this nature are located in the Metropolitan area, of which 11 trust and loan companies have their head office in the City of Winnipeg. These firms provide a variety of financial assistance to business men and to the general public. In addition to acting as trustees and agents for individuals and corporations, most of the trust and loan firms provide a savings branch service and a safety deposit department.

INSURANCE—

The insurance service is well developed and some 323 companies are represented, providing service in all fields of insurance. The City of Winnipeg is the head office of four life insurance companies, Sovereign, Monarch, Canadian Premier and Great-West Life—one of the largest in Canada. There are 17 companies engaged in other forms of insurance business, also with their head offices in Winnipeg. Over $190 million of ordinary life insurance is sold annually in the province.

STOCK EXCHANGE—

The facilities of the Winnipeg Stock Exchange are used mainly in trading in the stocks and securities of local companies.

EDUCATION

A major requisite for progressive industrial and commercial concerns is the existence of sound academic and properly equipped technical training establishments. The public schools, colleges and technical establishments in Metropolitan Winnipeg are noted for the maintenance of high academic standards. Excellent instruction is given in all public schools up to and including senior matriculation.

Winnipeg has an expanding school system which is witnessing changes in physical growth and in curriculum content. There has been a general broadening of the educational program, and there are now four courses available in the high schools. All high school courses are built around a core of academic subjects—English, Mathematics, Science, and Social Studies. Four courses—academic, commercial, home economics, and industrial arts—are built around these basic subjects. The academic course is the usual matriculation course and is required for university entrance. In each of the other three courses, the students become acquainted with the basic tools and techniques, and are made aware of the opportunities which exist in the various fields or crafts under study. In the senior year 80% of the school time is assigned to the main body of studies, and 20% to the optional course.

A different course of study is offered at the Technical-Vocational High School in Winnipeg. This is a new school and offers industrial and home economics courses. This school gives 50% of the time to the industrial courses and the remaining 50% to academic subjects. This increased time allowed to the industrial courses, gives the student the equivalent of several months, and perhaps a year, of apprenticeship training, and is taken into account when he becomes apprenticed to a trade. In 1960-61 this school had an enrolment of 1,220 and offered courses in the following fields: Auto and Power, Graphic Arts, Industrial Design, Metal, Building, Electrical, Household and Personal Service, Industrial Food Service, Needle Trades, and Commercial Courses.

The content of these courses is under revision, and both management and labor are co-operating with the Departments of Labor and Education in providing courses to meet the needs of the students and of industry.

The Manitoba Technical Institute, a provincial trades school located in Winnipeg, is the fourth school of its kind to be established in Canada. The Institute provides young people with an opportunity for vocational training and at the same time is a very substantial source of supply for technicians for industry and business. Facilities are available for approximately 50 courses with an enrolment of 850 students.

Courses are given on an intensive, practical basis and trades testing for all designated trades is carried out. The courses vary in length from six months to two years. The staff is composed of journeymen of considerable experience in their particular trades. Through the co-operation of the Apprenticeship Board, a close contact is maintained with the various trades through advisory committees which review the courses of instruction from time to time and advise the principal of the type of training that they believe the graduates of the Institute should have. In this way the courses are kept intensely practical and in close harmony with the needs of the various trades. Vocational courses in high schools and in the Manitoba Technical Institute receive financial support which is shared by the Dominion and Provincial Governments under the terms of the Vocational Training Co-ordination Act of 1942.

The student entering the University of Manitoba, which is situated in Fort Garry, has the choice of a full program in almost all academic and professional fields. Degrees may be obtained in Arts; Science; Commerce; Civil; Electrical and Mechanical Engineering; Medicine; Dentistry; Architecture and Interior Design; Agriculture; Law; Home Economics; Education; Social Work and Theology. Affiliated colleges are located in Winnipeg and in the city of St. Boniface. Teacher training for those with matriculation qualifications is provided by the Manitoba Teachers College situated in the Town of Tuxedo.

Training and education are not confined to day classes and facilities for adult education in evening classes and institutes are many and varied. As part of the public extension system, the University of Manitoba conducts the Evening Institute, consisting of classes of an academic and practical nature, conducted by competent instructors. The Winnipeg School District also provides evening classes for adults in academic, technical and commercial subjects. For this purpose the shop and classroom facilities of nine schools are used and the courses are made available to residents of surrounding municipalities. The Manitoba Technical Institute also maintains classes of evening instruction. During the winter, 18 courses are offered covering mainly trade improvement. Any pertinent course of instruction requested by a group will be given at the Institute. The Manitoba Labour Institute offers expert instruction in Economics, Law, Public Speaking and English. The Institute is sponsored by the Provincial Department of Education in conjunction with Trades Union Organizations.

Over and above the public schools and colleges there are many private organizations providing instruction in academic, trades, commercial, recreational and cultural subjects. Thirty-one schools are registered under the Trade-Schools Regulation Act.

The building program for Winnipeg City Schools has centered around the problems of elementary accommodation in areas where extensive residential construction has been in progress. Winnipeg School District number 1 has a teaching staff of 1,783 and an enrolment of 46,340 with over 16,000 additional students registered at suburban schools.

LABOR

Employment in the Metropolitan area of Winnipeg was not subject to wartime and post-war fluctuations, and Winnipeg was the major industrial city in Canada showing an appreciable gain (15.9% at July 1, 1948) in employment over the same date at the wartime peak year of 1943. The employment index in September, 1960, was 115.0 in Winnipeg based on the 1949 figure as 100.

SUPPLY—

The Census of 1951 showed that the employed force in the Metropolitan Winnipeg area for all occupations numbered 140,740, composed of 96,372 male workers and 44,368 female workers. The employed forces of September 1960, was estimated at 210,000 male and female. The expansion of manufacturing and commercial establishments, along with the diversity of occupations, has tended

Courtesy Manitoba Government Department of Industry and Commerce

St. Boniface Basilica stands on the site of the first Roman Catholic mission in the west, built in 1818. On the eastern bank of the Red River, the towering, Romanesque structure dominates the "Cathedral City."

to attract large numbers of younger workers from the rural areas and smaller centres. The seasonal aspect of certain industries, i.e. packing, construction, causes a seasonal fluctuation in the supply of certain classes of workers which reaches a maximum peak in the winter months.

In order to channel workers into vacancies, the National Employment Service, a Federal Department, maintains two offices in Winnipeg and one in St. Boniface. In addition there is an executive and professional branch in the City of Winnipeg. The Regional Office of the Prairie Region is also located in Winnipeg. National Employment Service officers carry out the registration of high school students and University students during the winter months for employment in the summer and upon graduation.

TRAINING—

As indicated in the Section on Education, present training facilities and the projected expansion of these facilities are designed to ensure a steady flow of well trained technicians and artisans into the working stream in order that the requirements of expanding industry and of new establishments are satisfied. In this respect both industry and labor are co-operating with the training units to an unprecedented degree. In some cases interested industrialists have set up scholarship funds to assist worthy trainees. This is especially true of the garment industry.

LABOR-MANAGEMENT RELATIONS—

The incidence of strikes for the Metropolitan area is among the lowest for cities in Canada. Excellent employee-management relations are in evidence, not only in the Winnipeg region, but also throughout the rest of the Province.

BUILDINGS AND SITES AVAILABLE

Recent indications are that industrial and commercial space for lease and sale is becoming more available as expanding plants move into new quarters.

The City of Winnipeg has developed a large tract of land in the northwest corner of the city, on both sides of the CPR line. The area is bounded on the east by Fife St and on the south by Redwood Av. The tract was developed by the city in response to a demand for industrial property. This is the Inkster Park Industrial area and a dozen firms have been located here.

A large tract of land lying south of the proposed new reservoir in South Winnipeg has been subdivided for industry in Fort Garry. Several large companies have acquired property and have built or plan to build substantial plants.

A huge area has been zoned for industrial use by the City of St Boniface. Many large plants are situated in the tract along Archibald and Marion. The city has developed an area between Dawson and Panets Roads that is one of the most desirable industrial districts in the Metropolitan area.

An area in Brooklands, immediately north of Notre Dame av, is being developed for industrial use. A trunk sewer has been completed in the village and can be extended to service this tract when necessary.

A large tract of choice property has been set aside for industrial use by the city of East Kildonan. Several manufacturing firms have already located there. C.P.R. spur trackage, sewer and water facilities, paved roads and railway sidings are available.

Transcona has an attractive site west of the town. This area has the advantage of being strategically located on a good highway near Winnipeg and benefits from Transcona's low rate of taxation. Two major companies have completed large developments in this area which is assuming an ever greater significance as an industrial area of the future.

The Municipality of North Kildonan has zoned two areas for industrial development:

In the area north-east of the junction of McLeod av and Gateway rd. Water and sanitary sewer facilities are nearby, spur trackage is readily available and access to Henderson hwy and Highway 59 is direct.

In a tract of land west of King st in the south-east corner of the municipality. This industrial area and the Transcona industrial site, which lies alongside, are being jointly developed by North Kildonan and Transcona. Sewer, water and trackage are available.

Industrial and commercial property is also obtainable in the Rural Municipality of Assiniboia, in the vicinity of the new Assiniboia Downs race tracks.

St Vital has designated a huge area in the south of the municipality for industrial use. However, it will be some time before it can be serviced with sewer and water. The tract can be serviced by the C.P.R. Duluth-Minneapolis lines. The Winnipeg Pipeline passes to the east of the property.

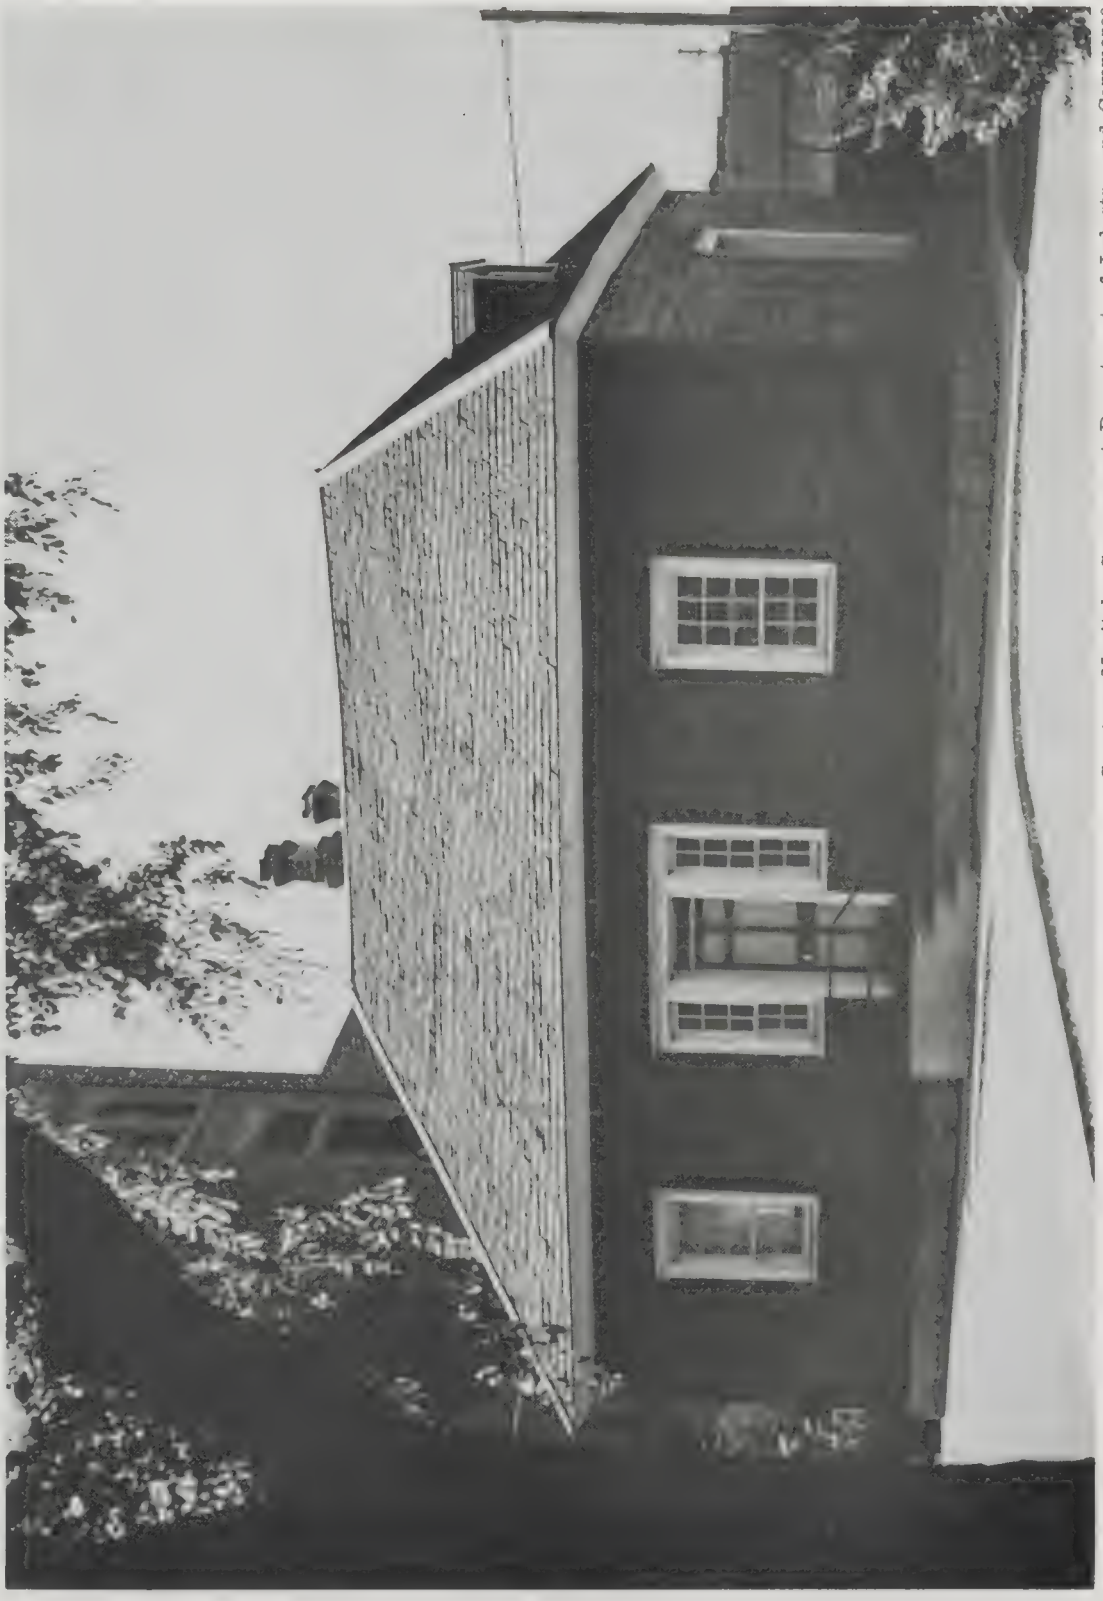
RECREATION AND CULTURAL FACILITIES

For the dweller in the Metropolitan area, whether inclined to strenuous athletics or to milder intellectual pursuits, there is ample recreational scope. The facilities range from the Red River with its aquatic, rowing and canoe clubs to the splendid Civic Auditorium in the heart of Winnipeg, which houses the provincial museum, an art gallery and two concert halls. The larger of these halls, seating over four thousand people, is the scene of the annual Musical Festival, which ranks among the largest in the world. Here also perform many of the world's great artists in the Celebrity Concert Series, and here one may listen to Winnipeg's own Symphony Orchestra. The Winnipeg municipal theatre, the Playhouse, has many forms of entertainment, including vaudeville, musical shows and dramatic productions of amateur and professional companies, and performances of the Royal Winnipeg Ballet, one of Canada's leading companies. In the Metropolitan area there are 32 theatres, including 4 "drive-in" open-air theatres.

All manner of sport facilities, spectator and participant, exist in the district. Ice hockey is the outstanding winter sport, and Metro Winnipeg has several leagues, ranging from playground to semi-professional. From the area come many of North America's outstanding hockey professionals. Curling, another favorite winter sport, has many adherents grouped into 21 curling rinks operating in the area. The Annual Winnipeg Bonspiel is considered the world's largest.

In the field of organized family recreation, the Metropolitan area is leading the rest of Canada. There are 70 local community clubs in existence, with several in the process of formation. These clubs have supervised recreation and social activities and many of them have a program of handicrafts and hobby shops for adults and juveniles. Other local organizations which have supplementary or complementary programs to the community clubs and YMCA, YMHA, YWCA, Winnipeg Winter Club, Home and School Associations, and many church groups.

The Winnipeg district has over 1,386 acres of land distributed in approximately 102 public Parks, squares and athletic fields, and 26 undeveloped sites. These range in area from a fraction of an acre to the large 296-acre Assiniboine Park, with its lovely flower gardens, lawn tennis courts, cricket pitches, Zoo, Conservatory, Palm House and refreshment pavilion.



An extensive list of other facilities would include:

- 17 golf courses
- 21 lawn bowling associations
- 23 shooting clubs
- 8 ski clubs
- 5 riding academies
- 28 indoor bowling establishments
- 8 badminton clubs
- 2 roller skating arenas
- 2 indoor skating arenas
- 1 race track
- 1 go-cart racing track
- 1 stock car racing track
- 4 rifle and gun clubs
- 1 squash racquet club
- 1 archery club
- 2 Yacht clubs

In addition Greater Winnipeg is well situated with regard to summer resorts on lake and stream, with excellent hunting and fishing.

TOURIST INDUSTRY

The results of the Provincial Bureau of Travel and Publicity of the Department of Industry & Commerce, 1956 tourist survey, indicate that over 90% of the American tourists entering Manitoba pass through Winnipeg. 1960 estimates indicate that 1,260,-

Courtesy Manitoba Government Department of Industry and Commerce

Ross House, the first post office in Winnipeg, has been preserved as an historical museum of Winnipeg's early days.

000 tourists visited Manitoba, their expenditures totalled over $36 million.

Accommodation for the travelling public is provided by 76 hotels with approximately 3,600 rooms with a bed capacity of approximately 6,000. The larger hotels have excellent facilities for convention purposes. Approximately 25 motels are in the area with 535 rooms and accommodation for 1,600 plus.

SOCIAL AMENITIES

HOSPITALS—

Hospitalization facilities include 7 general hospitals with a total bed capacity of 2,648. The total staff is over 5,387, including student nurses. A provincial sanatorium is located in St Vital and a large regional veterans hospital in the city of St James. The diagnostic facilities in Greater Winnipeg are on a par with the larger North American Centers.

In addition there are 3 contagious and chronic hospitals with 932 beds and one Sanitorium. These hospitals have a staff of approximately 600.

LIBRARIES—

The Carnegie Foundations libraries in the City of Winnipeg are available to residents of the Metropolitan area. The libraries consists of one main library and three branch libraries with special boys and girls' departments in four Winnipeg Schools and two bookmobiles.

The libraries contain 218,731 volumes which are at the service of any resident of the city. The reading rooms, which are open to all comers are stocked with a good selection of daily and weekly newspapers and with all the leading magazines published in the English language. The main library contains a film and a phonograph record department which has 964 films (owned by library) and some 6,920 records which are loaned on a rental basis. Other libraries in the area include the Provincial Library in the Legislative Buildings, a free reference Directory library, libraries of the University of Manitoba and affiliated colleges, and eight rental libraries, Jewish Public Library, St. Boniface Public Library (branch in Norwood), The St. James Public Library, The St. Vital Public Library and The Transcona Public Library.

RELIGIOUS ORGANIZATIONS—

Nearly all major religious denominations are represented in the 324 churches and missions in the Metropolitan area. The varied church organizations play an important part in the social life of the community and reflect the cosmopolitan nature of the population. In the City of St. Boniface is located the twin-spired Cathedral, now a Basilica, made famous by the Poet Whittier.

SERVICE ORGANIZATIONS—

Service leagues, clubs, fraternal and sorority organizations are all very active in performing service to the community in many phases of activity. Approximately 100 such organizations exist in the area, each organization having several branches.

HOUSING—

Following the war the Winnipeg area, in common with other large urban areas of Canada, experienced an acute housing shortage. Since 1951 increased building activity has produced a total of 27,699 dwelling units, including wartime housing, integration schemes, apartments and other housing. The present ratio is one house to every 3.4 persons.

POPULATION AND MARKETS

In total population Metropolitan Winnipeg is the largest of the urban areas of the three Prairie Provinces, and it is the fourth largest urban area in Canada. The 1956 census of population showed it as 409,687, and now is approximately 460,000.

The data on population as outlined above indicates the immediate retail urban market.

Three-quarters of retail sales are accounted for by stores in the General Merchandise, Food and Beverage and Automotive Groups among the metropolitan municipalities. Retail sales in the General Merchandise Groups are a larger proportion of total sales in the metropolitan area than they are in the Province. This is primarily due to sales in the Automotive Group outside the City.

The importance of Winnipeg as a retail centre is emphasized by the fact that retail sales are 65% of Manitoba's, although people living in the metropolitan area receive about 48% of the province's personal income. The concentrated market for consumer goods is further emphasized when it is considered that stores within 100 and 150 miles of Winnipeg's had sales in excess of 437 and 501 million dollars respectively at the time of the last Census of Distribution. The fact that Greater Winnipeg's retail sales are larger than those for either of the provinces of Newfoundland, Prince Edward Island, or New Brunswick and are almost equal to those of Nova Scotia, is a further indication of the extent of the market. In 1959 retail outlets recorded estimated sales of $527,500,000.

Statistics are not available for the wholesale trade in the whole metropolitan area, however, data on the cities of Winnipeg and St. Boniface (which represent more than 95% of all wholesale trade in the metropolitan area) show that the total volume of the 1,122 establishments was $1,828,545,800 in 1951. This was 40% of the wholesale sales for all three prairie provinces and was 89.7% of the volume of wholesale trade for Manitoba.

Winnipeg is surpassed by Vancouver only in the West and Montreal and Toronto in the East as retail sales markets.

MANUFACTURING

The manufacturing industries in Metropolitan Winnipeg are one of the most important factors in its economy, being the largest individual source of employment. At the end of 1958 out of a total employment of 95,893, manufacturing gave work to 34,776 or 36%. The next largest employment group is the wholesale and retail trades with 26,248 or 27%.

The estimated value of manufacturing production in Greater Winnipeg in 1960 was $676,450,000 with payrolls of $130,000,000.

Much of the Metro Winnipeg's success as an industrial centre lies in the diversification of its industry which is unsurpassed by any comparable city in Canada. One of its chief assets is the excellent relationship which exists between management and labor, an enviable situation which has existed for 25 years.

The industrial picture of the metropolitan area is one of continual change and dynamic progress. Every year new industries are established and new products introduced.

The prospects for further industrial expansion are bright. Here, are all the modern facilities needed by a large manufacturing centre: good transportation, excellent water supply, ample electric power at reasonable rates, and a good supply of skilled labor.

The central geographical position in a rich agricultural area bounded by a northern section abundant in natural resources, particularly minerals, makes Metro Winnipeg a city with an enviable future.

The fast-growing oil fields in southwestern Manitoba are rapidly increasing the importance of our oil industry. Total number of wells actually producing at the end of 1959 was 780 and the total production in the year was 1,930,505 barrels. The capacity of Manitoba refineries is now 11 million barrels annually, and our well production is more than half that at present.

An indication of the activity in our mining industry for which Winnipeg is the supply headquarters, is the current development of International Nickel Co's, 175 million dollar mining project in the Mystery-Moak Lake area of Northern Manitoba. Other mines are being opened up in South East Manitoba as well as in The North.

COMMUNICATIONS

In all media of communications, Greater Winnipeg is served well. The **telephone system** in the province is provincially owned and operated. In the Greater Winnipeg district there were 189,589 telephones as of Nov 1, 1960. Five **radio stations** operate in the Metropolitan area, four of them in the City of Winnipeg and one French language station in the City of St. Boniface.

Call Letters	Wattage	Frequency

Winnipeg is noted across Canada for its fine hospitals and clinics and for the general excellence of the staffs which administer them. Shown here is the Princess Elizabeth Hospital.

ST. JAMES PUBLIC LIBRARY

TELEGRAPH SERVICE—

Telegraph service is supplied by the Canadian National Telegraphs, a subsidiary of the Canadian National Railways, and the Canadian Pacific Telegraphs, a subsidiary of the Canadian Pacific Railway.

For **Postal Service** the Winnipeg district is within 24 hours postal time of most North American centres and about 48 hours from the United Kingdom.

PUBLICATIONS—

It is generally recognized that the Winnipeg area, with its heterogeneous population, is the Canadian centre for foreign language and the racial group publications. In addition there is a wide variety of weeklies, farm papers, magazines and trade organs issued in conjunction with many phases of activity in the Province. Many of these publications have wide circulation in the Prairie Provinces as well as in other parts of the Dominion.

Dailies

Winnipeg Free Press; Winnipeg Tribune.

Weeklies

East Kildonan - Elmwood Herald; Fort Garry Fort Lance; St. Vital Lance; St. James Leader; Norwood Press; La Liberte et Le Patriote; Manitoba Commonwealth; Western Jewish News; Jewish Post; Canadian Farmer; Der Courier; Der Nordwesten; Kildonan Weekly Post; Transcona and Eastern Manitoba News; Transcona Reporter.

Foreign Language Publications (Excepting French)

CROAT & SERB—Hrvatski Glas (Croatian Voice); Croatian Voice Annual

GERMAN—Mennonitische Rundschau; Der Nordwesten; Montrealer Zeitung.

HUNGARIAN—Kanadai Magyar Ujsag (Can Hungarian News)

ICELANDIC—Heimskringla (The Globe); Icelandic National Almanak; Logberg (Law Mountain).

JEWISH—The Israelite Press

NORWEGIAN—Norge-Canada; Norrona (The Norseman)

POLISH—CZAS (Polish Times); Glos Polski (Polish Voice)

SWEDISH—Canada Tidningen (Swedish Canada News)

UKRAINIAN—Miy Priatel (My Friend); Novy Skliakh (New Pathway); Ukrainsky Holos (Ukrainian Voice); Kanadijski Ranok (Canadian Mornine)

Farm Papers

Canadian Cattlemen—Monthly
The Canadian Farmer (in Ukrainian)—Weekly
Canadian Farmer Annual
The Country Guide—monthly
Croatian Voice Annual
Der Nordwesten (published in German)—Weekly
Der Nordwesten Annual
Free Press Weekly Prairie Farmer
Manitoba Co-operator—Weekly
Modern Farmer—Weekly
Voice of the Farmer—Monthly
Weekly Market News & Modern Farmer

Labor Publications

C A R Journal: The Railway Review

Magazines

Game and Fish; My Friend (See "Miy Priatel"); The Beaver; Actimist; Action.

Trade and Business

Agricultural Chemicals in Canada; Canadian Farm Implements; Canadian Grain Journal Miller and Processor; Canadian Home Economic Journal; Canadian Welder; Driveway Reporter; The Food Distributors Bulletin; Fur of Canada; Manitoba Medical Review; Manitoba Highway News; Motor in Canada; Official Shipper Guide; Oil in Canada; Prairie Druggist; Prairie Grocer and Provisioner; Prairie Lumberman; Trade and Commerce in Western Canada; The Pre-Cambrian; Western Buyers Market; Western Canada Coal Review; Western Construction & Building; Western Garment Industry and Wholesalers Review; Western Grocer and Food Store Manager; Western Manufacturing and Industrial Development; Western Motor Fleet; Western Municipal News; Western Trade Index; Western Grocer and Manitoba Industry & Commerce Bulletin.

FURTHER INQUIRIES

The foregoing data show that the cities and municipalities forming the Metropolitan area of Winnipeg have much to offer the industrialist and businessman who is considering the Western Canadian Market. In a publication of this nature, it is not feasible to give the wealth of detail and specialized data required by many industrial organizations. Interested firms may obtain such information from the **Department of Industry and Commerce, Norquay Bldg., Winnipeg,** or Metro Winnipeg Industrial Development Board.

WINNIPEG CIVIC ADMINISTRATION

1961

MAYOR—
Stephen Juba
Ald David Mulligan, acting mayor

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad - check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

THE 1961 RAMBLER CLASSIC STATION WAGON

A handsomely restyled grille and new hood lines distinguish the 1961 Rambler Classic station wagons, available in three-seat and two-seat models. Fresh sculptured side styling accents the compact Rambler's new front-end design. Engines in the Classic series include the lightweight alumnium six-cylinder engine rated at 127-horsepower and the V-8 engine developing 200 horsepower.

DO YOUR EMPLOYERS FURNISH YOU WITH THE LATEST EDITION OF THE CITY DIRECTORY?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Canada's First Bank knows Winnipeg best . . .

Since the B of M first came to Winnipeg, back in 1877, it has become part of the hustle and bustle of this progressive city. By pioneering and planning . . . by living with its people and constantly working to build their industrial and commercial development . . . the Bank of Montreal has been able to make a unique contribution to the City's growth and to obtain an intimate, all-embracing knowledge of its people, and, indeed, of the entire province. With 44 branches in Manitoba, and 850 offices from coast-to-coast in Canada, Canada's First Bank is equipped to handle your needs wherever your interests may lie.

Let the B of M put its wealth of business experience and knowledge to work for you. Choose as *your* guide to business opportunity in Winnipeg the bank that knows it - and Canada - best.

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CITY DIRECTORY USAGE SOARS TO *NEW HIGH!*

Post-war relocations of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just just over the horizon of the future—these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

CAUTION . . . .

★

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION....

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Cashiers! Tellers! Clerks!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

RUSCO STEEL WINDOWS & DOORS

You'll *adore* this door

RUSCO
ADJUSTABLE
DOOR

in your choice of 19 decorator colours

COLOUR—matching, harmonizing or contrasting with the colour of your home. Completely finished—the colour baked on to last. Command of comfort in every season. You just adjust it with the light touch of your finger tips.

Every minute you live with it, you'll adore your RUSCO door—the charm it adds, the convenience, the beauty—and *the strength beneath the beauty*. For it's made of STEEL for strength and long life. Strongest *adjustable* door you can buy. Look for *colour* and the *diamond design*. That's RUSCO!

Have a demonstration—No obligation

● *Qualifies for Home Improvement Loan at your bank. Budget Terms available.*

THE RUSCO TRADE MARK AND THE STEELMARK MEAN UNSURPASSED VALUE AND LASTING SATISFACTION

Steel

Lightens your work
Brightens your leisure
Widens your world

A PRODUCT OF CANADA

PLANNING A NEW HOME?

Ask your Architect or Builder about

RUSCO

The all-season window unit that offers complete ventilation control.

PRIME WINDOW UNITS

The only complete, packaged metal window unit that combines glass, screens, weather stripping . . . plus insulating sash* . . . factory-assembled . . . factory-painted. Nothing more to buy.

- PROVIDES BUILT-IN CONTROLLED VENTILATION . . . MANY YEAR 'ROUND BENEFITS.
- COSTS NO MORE THAN ORDINARY WINDOW UNITS.
- COSTS LESS TO INSTALL AND MAINTAIN.
- NO WEIGHTS, BALANCES OR CORDS.
- GLASS AND SCREEN INSERTS EASILY REMOVED FROM INSIDE FOR CLEANING.
- POSITIVE AUTOMATIC LOCKING IN ALL VENTILATING AND CLOSED POSITIONS.
- STREAMLINED . . . DURABLE . . . BEAUTIFUL.

RUSCO PRIME WINDOWS

WILL ADD TO THE JOY OF LIVING IN YOUR NEW HOME

Build well Build faster ...for less
with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.

Build well Build faster ...for less
with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.

Build well
Build faster
...for less
with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.

Build well
Build faster
...for less
with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.

Build well Build faster ...for less

with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.

Build well Build faster ...for less

with **BUTLER** *buildings*

A trim all-metal Butler building or one distinctively custom-styled costs less than a traditional building of equal quality.

Butler buildings are mass-produced to hold down costs, yet precision-made to a degree not possible with traditional buildings.

They are erected quickly, saving time and money. Easy and economical to insulate, heat, ventilate, illuminate and maintain. For facts, call or write today.
